

Domaine des Diables *Cotes de Provence, France*

Virginie Fabre and Guillaume Philip arrived at the foot of Sainte-Victoire in 2005. In 2007 they harvested the first grapes on their estate, the famous "Domaine des Diables" established on this Puylobier plain in Cotes de Provence. The 40 acres estate is located on a rich silty limestone-clay and stony soil which produces very aromatic rosés.

Le Domaine des Diables benefits from optimum exposure for producing healthy, high-quality grapes. Indeed, the plots are under the constant influence of twelve different winds, the most famous of which is the Mistral.

In the interests of constant respect for the environment and the consumer, all the plots are cultivated with organic farming principles. This technique consists of following the presence and evolution of vine potential diseases very closely, and intervening only if the risk of damage is high. This allows minimal treatments and the preservation of the flora and fauna on the Sainte Victoire site.

Certification organic

Mechanical harvest

40% Syrah,
40% Cinsault,
20% Grenache

Vines from 1 to 97 years

Strainless steel

Yield: 40hl/ha

clay, silt and sand,
with presence of
round pebbles

7 000 bottles

Vinification method: Cold maceration before fermentation. Pressing under oxygen-excluding conditions, fermentation at low temperatures.
Ageing: Four months on fine lees.
