

Les Polissons Malbec Cahors, France

Clos D'Audhuy is located in the west part of the AOC Cahors, in the village of Lacapelle-Cabanac. Today the estate counts 6 hectares under the direction of Benoit Aymard, third generation winemaker. Benoit only uses organic practices in the vineyard and has now started the process to get the certification.

Vineyards are located between 150 and 260 meters above sea level.

Vineyards are planted on an alluvial and gravel terrace rising from the Lot River, and on the plateau (or cause) above the terrace, where the limestone bedrock is covered by only a thin layer of soil.

Benoit Aymard is part of the new generation of winemakers in Cahors who put their focus on terroir, their goal being to showcase the expression of Malbec on various soils in Cahors

Les Polissons is produced from 30-year-old vines, this is a generous and open wine that is made to be drunk young. It has broad berry fruits, great tannins and acidity. The wine has no wood aging, keeping the bright fruitiness intact.

Certification organic (in conversion)

Hand harvest

100% Malbec

Average age of vine 25 years

Stainless steel

Yield: 45 hectoliter/hectar

Limestone and calcareous clay

Annual production: 6 000 bottles

Short maceration at low temperature.
Pumping over and punching down for extraction.
Short ageing in stainless steel tank with multiple racking.
Light filtration before bottling.
